

Tokyo, 1 June 2020

## **Spectrum application procedures following postponement of the Games**

Dear Spectrum Applicant,

We sincerely hope this email finds you well in this global turmoil.

We would like to inform you of the following points regarding your spectrum application for the Tokyo 2020 Olympic Games & Paralympic Games.

Your current application for spectrum for Tokyo 2020 has been pre-approved for the postponed Games in 2021, subject to confirmation later this year by the regulator, so there is no need to re-apply. For those who have not yet received the result of your application, we plan to notify you of the result of your application from the end of June 2020.

**Applicants are now requested to review their frequency assignments for the Games in 2021 on the premise that there will be no change to venues and competition schedules. Please confirm to Tokyo 2020 whether you still require your assigned frequencies or not by sending back your confirmation to the email address below no later than 31st August 2020.** Please note that assigned frequencies will be withdrawn for use in 2021 if no confirmation of requirement is received by Tokyo 2020.

**Applicants are also requested to notify Tokyo 2020 no later than 31st August 2020 if their assigned frequencies need to be changed.** In this situation, information must be provided by the applicant detailing which items in the assigned frequencies need to be revised and for what reasons, including details of the revisions required (e.g. change to new frequency, change to transmit power, etc.). Please note that frequencies have already been assigned to a large number of applicants and therefore Tokyo 2020 may be unable to satisfy all requests for change received.

**Contact us at [spectrum@tokyo2020.jp](mailto:spectrum@tokyo2020.jp)**

Please also note the following:

- ✓ Notification of assigned frequencies with new operational dates for the Games in 2021 will be issued by Tokyo 2020 during the period of 30th September to 31st December 2020 once confirmation of requirement is received from applicants and all competition venues are fixed. This is based on the premise that all competition venues will be fixed no later than the end of July 2020.
- ✓ In case of a venue change: Assigned frequencies for the new venue are no longer valid, however you do not need to re-apply for frequency allocation. Your frequency application for the original venue will be appropriated as your application for the new venue and you will be notified of your assigned frequencies in due course.
- ✓ For now, the Extraordinary Application Period for spectrum is suspended. **It will resume on 1st Feb 2021.**

Best regards,

Tokyo 2020 Spectrum Team
